

Kishigo introduces our first safety vest constructed with recycled materials.

The 1828 Recycled Vest is produced to our same exacting, high-quality standards, but crafted with post-consumer recycled (PCR) materials including the fabric, binding, thread, care label and hangtag.

PERFORMANCE FEATURES & BENEFITS

- < Certified 100% Post-Consumer Recycled (PCR) Polyester supporting global sustainability efforts
- < Lightweight and breathable polyester mesh fabric that's ideal for everyday use
- < Soft, wrinkle-free material for increased comfort with a professional look
- < 2" highly reflective, glass bead tape for enhanced visibility
- < Secured zipper closure for improved fit, versatility and garment layering
- < Available in sizes S - 2XL

POCKETS

- < Gusseted left chest pocket provides easy access to essential items
- < Ergonomically designed front slash pockets for increased comfort

ANSI/ISEA 107-2020 Type R | Class 2
